**GAS NATURAL AND GAZPROM MOVE FORWARD
IN THEIR COOPERATION IN THE LNG MARKET
AND IN OTHER BUSINESS ACTIVITIES**

- **The two companies have signed today a Memorandum of Understanding (MOU) that includes the supply of natural gas for the markets operated by GAS NATURAL, with the strategic objective of enhancing its competitive and flexible portfolio.**
- **Gazprom will study the possibility of acquiring combined cycle gas turbines from GAS NATURAL.**

GAS NATURAL and Gazprom Marketing & Trading signed today a Memorandum of Understanding (MOU) under which both companies express their intention to reach an agreement for the future sale and purchase of LNG, as well as to extend their cooperation in other areas, such as natural gas trading, CO₂ emission rights trading and power generation.

The agreement was signed today by the Chairman of GAS NATURAL, **Salvador Gabarró**, and the Chief Executive Officer of Gazprom, **Alexei Miller**.

GAS NATURAL and Gazprom will negotiate LNG sale and purchase agreements of medium and long term duration. The two companies will also explore potential commercial agreements to develop their respective gas businesses in North Western Europe.

Under the MOU signed, Gazprom will analyse the possibility of acquiring combined cycle gas turbines in Spain from GAS NATURAL. The company currently owns 3,600 MW of combined cycle gas turbine capacity in operation and a further 2,000 MW under construction or at the planning stage.

Finally, GAS NATURAL and Gazprom will also study possible transactions on carbon emissions rights, such as the acquisition by GAS NATURAL of Certified Emission Reduction (CER) and Emission Reduction Units (ERU).

Barcelona, 3 March 2009.
